### **PROPOSAL 1: ELECTION OF DIRECTORS**

Six directors, constituting our entire board of directors, are to be elected at the annual meeting to serve until the next annual meeting of shareholders and until their respective successors have been duly elected and qualified. All of the nominees are currently directors and have been recommended for re-election by the nominating and corporate governance committee of the board and nominated by the board. If any nominee should become unavailable for election for any presently unforeseen reason, the persons designated to serve as proxies will have full discretion to vote for another person nominated by the board.

Directors are elected by a plurality of the votes cast by the holders of shares entitled to vote in the election of directors at the annual meeting. Our Restated Articles of Incorporation prohibit cumulative voting for the election of directors.

The board and the nominating and corporate governance committee unanimously recommend that all shareholders vote FOR the election of all our director nominees. All duly submitted and unrevoked proxies will be voted FOR our nominees except where authorization to so vote is withheld. Votes withheld and broker non-votes are not counted in the election of directors.

## **CORPORATE GOVERNANCE**

We have adopted corporate governance practices in accordance with the listing standards of the Nasdaq Global Market and commensurate with our size.

Our board of directors consists of six directors. Upon the recommendation of the nominating and corporate governance committee, the board has determined that Messrs. Cardin, Doumet, Irmscher and Odishaw are independent within the meaning of Nasdaq rules. In making the determination that Mr. Doumet is independent, the committee and the board considered the fact that Mr. Doumet is the brother of Mr. George M. Doumet, who indirectly owns all of the outstanding shares of Inberdon. Mr. Byrne, our president and chief executive officer, and Mr. Hughes, our former executive officer, are not independent within the meaning of the Nasdaq rules.

The board meets at least four times each year, and more frequently as required, and is responsible for overseeing the management of the business and affairs of the company, including the development of our major policy and strategy. The board has a standing nominating and corporate governance committee, audit committee, compensation committee and executive committee.

For a number of years, we have had the practice of separating the roles of chairman of our board and our president and chief executive officer. We believe that this leadership structure has served us well and may be expected to continue.

Our board of directors as a whole has overall responsibility for risk oversight. The board is involved in major operational and financial decisions, looking to the appropriate board committees for decisions and recommendations in their areas of specific responsibilities. As discussed below, our audit committee oversees our financial reporting and internal control, related-party transaction and “whistleblower” processes and procedures, while our compensation committee considers the impact of our executive compensation policies and practices on the risk profile of our company in making its compensation decisions. Our executive committee is chaired by our independent chairman, and one-half of the committee consists of independent directors.

During the year ended December 31, 2010, the board held five meetings, the nominating and corporate governance committee held one meeting, the audit committee held seven meetings and the compensation

committee held two meetings. The executive committee did not meet during 2010. During 2010, each director attended at least 75% of the aggregate of (a) the total number of meetings held by the board and (b) the total number of meetings held by all committees on which he served. The board has a policy encouraging each director to attend our annual meeting of shareholders, and all of our directors attended the 2010 annual meeting. The board also has a policy that, in conjunction with each regularly scheduled meeting of the board, the independent directors will meet in executive session.

Governance responsibilities are undertaken by the board as a whole, with certain specific responsibilities delegated to the four committees as described below:

- Our nominating and corporate governance committee (the “nominating committee”) is composed of Messrs. Doumet (chairman), Cardin, Irmscher and Odishaw, each of whom is an independent director. The primary purposes of the nominating committee are to identify and recommend individuals to serve as members of the board, to recommend to the board the duties, responsibilities, and members of each committee, and to assist the board with other matters to ensure effective corporate governance, including making independence and other determinations related to director qualifications. The nominating committee is responsible for administering the board’s procedures for consideration of director nominees from shareholders and the board’s process for shareholder communications with directors. The nominating committee will consider qualified candidates for nomination for election to the board recommended by our directors, officers and shareholders. In considering all such candidates, the nominating committee will take into account the candidate’s experience, qualifications, attributes and skills, in light of the size, structure, composition, diversity and needs of the board, in the following areas: our industries; accounting and finance; business judgment; management; leadership; business strategy; risk management; and corporate governance. All candidates should have a reputation for integrity, have experience in positions with a high degree of responsibility, be leaders in the companies, institutions, or professions with which they have been affiliated, and be capable of making a sound contribution to the company. Shareholders wishing to recommend a director candidate for consideration by the nominating committee should send all relevant information with respect to the individual to the chairman of the committee in care of our secretary. Shareholders and other interested persons who wish to contact our directors on other matters should contact our secretary. Our secretary, who may be contacted by mail at our corporate address or by e-mail at [uslime@uslm.com](mailto:uslime@uslm.com), forwards communications to the director(s) as addressed in such communication. The nominating committee has adopted a written charter which is available on our website located at [http://uslm.com/corporate\\_governance.html](http://uslm.com/corporate_governance.html). The nominating committee reviews and assesses the adequacy of its charter on an annual basis.
- Our audit committee is composed of Messrs. Cardin (chairman), Irmscher and Odishaw. Upon recommendation of the nominating committee, our board has determined that each member of the audit committee is independent and meets the other qualification standards set by law, regulation and applicable Nasdaq listing standards. Based on his past education, employment experience, and professional certification in public accounting, the board has determined that Mr. Cardin qualifies as an audit committee financial expert as defined by the Securities and Exchange Commission (the “SEC”). The audit committee oversees the company’s financial reporting and internal control processes on behalf of the board and is directly responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm (“independent auditors”). The audit committee is also responsible for overseeing the administration of our Code of Business Conduct and Ethics, which is available on our website located at [http://uslm.com/corporate\\_governance.html](http://uslm.com/corporate_governance.html); reviewing and approving all related-party transactions; and administering our procedures for the receipt, retention, and treatment of complaints regarding accounting, internal accounting control and auditing matters and for the confidential anonymous submission by our employees of concerns regarding questionable accounting or auditing matters, including our “whistleblower” procedures. Under our Code of Business Conduct and Ethics and our audit committee charter, we have written policies and procedures for the review and approval of related-party transactions. Proposed transactions with related persons and other transactions, arrangements or relationships involving a director or executive officer that may involve potential conflicts of interest are to be submitted in advance to the audit committee for its review and approval, with any involved director or executive

officer playing no role in the investigation and consideration of the matter. In considering whether to approve any such related-party transaction, including with Inberdon and its affiliates, the audit committee would consider whether the transaction was in the best interests of the company and all of its shareholders; whether the same or a similar transaction were available to the company from unrelated third parties on equal or better terms; and whether the terms of the related-party transaction were negotiated at arms'-length and were at least as favorable to the company as any other reasonably available transaction with another party. Advice from independent advisors, including formal fairness opinions, would be sought where appropriate. The audit committee has adopted a written charter which is available on our website located at [http://uslm.com/corporate\\_governance.html](http://uslm.com/corporate_governance.html). The audit committee reviews and assesses the adequacy of the charter on an annual basis. The Report of the Audit Committee is set forth below.

- Our compensation committee is composed of four independent directors, Messrs. Odishaw (chairman), Cardin, Doumet and Irmscher. The compensation committee is responsible for the evaluation, approval, and administration of salary, incentive compensation, bonuses, benefit plans and other forms of compensation for our officers and directors, including how our compensation policies and practices relate to our risk management processes and procedures and risk-taking incentives consistent with our overall risk profile. The compensation committee is responsible for administering the 2001 Plan. The compensation committee has adopted a written charter which is available on our website located at [http://uslm.com/corporate\\_governance.html](http://uslm.com/corporate_governance.html). The compensation committee reviews and assesses the adequacy of the charter on an annual basis. The Report of the Compensation Committee is set forth below.
- Our executive committee is composed of Messrs. Doumet (chairman), Byrne, Hughes and Odishaw. Within the policy and strategic direction provided by the board, the executive committee may exercise all of the powers of the board, except those required by law, regulation or Nasdaq listing standards to be exercised by the full board, or another committee of the board, and is required to report to the board on all matters considered and actions taken since the last meeting of the full board.

## **REPORT OF THE AUDIT COMMITTEE**

The Audit Committee is composed of three independent directors as defined under the applicable rules of the Nasdaq Global Market, Section 10A(m)(3) of the Securities Exchange Act of 1934, and the rules and regulations of the Securities and Exchange Commission (the "SEC"). The Committee oversees the company's financial reporting and internal control processes on behalf of the board of directors. The Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the company's independent registered public accounting firm ("independent auditors"). Management has primary responsibility for the company's financial statements and reporting process, including the company's systems of internal control. Grant Thornton LLP, the company's independent auditors, is responsible for performing independent audits of the company's financial statements and its internal control over financial reporting, in accordance with standards established by the Public Company Accounting Oversight Board, and expressing opinions, based on its audits, as to the conformity of such financial statements with accounting principles generally accepted in the United States of America and as to the effectiveness of such internal control over financial reporting.

In the performance of its oversight function, the Audit Committee has reviewed and discussed the company's audited financial statements and internal control over financial reporting with management and the independent auditors. The Committee has discussed with the independent auditors the matters required to be discussed under Public Company Accounting Oversight Board (the "PCAOB") standards. In addition, the Committee has received from the independent auditors the written disclosures and the letter concerning independence required by the PCAOB and discussed with them their independence from the company and its management. The Committee has considered whether the independent auditors' provision of non-audit services to the company is compatible with the auditors' independence.

The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluation of the company's internal control over financial reporting and the overall quality of the company's financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended, and the board of directors approved, the inclusion of the company's audited financial statements in the company's Annual Report on Form 10-K for the year ended December 31, 2010 for filing with the SEC.

Respectfully submitted by the members of the Audit Committee of the Board of Directors,

Richard W. Cardin, Chairman  
Wallace G. Irmscher  
Edward A. Odishaw

## EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

The compensation committee of our board has the responsibility for administering our executive compensation program. The committee reviews and, as appropriate, makes recommendations to the full board regarding the base salaries and annual cash bonuses for executive officers, and administers our 2001 Plan, including the grant of stock options and shares of restricted stock. Where appropriate, we may enter into employment agreements with certain executive officers.

*Compensation Philosophy and Objectives.* Our principal executive compensation policy, which is endorsed by the committee, is to provide a compensation program for executive officers that will attract, motivate and retain persons of high quality and will support a long-standing internal culture of loyalty and dedication to the interests of the company and our shareholders. In administering the executive compensation program, the committee is mindful of the following principles and guidelines, which are supported by the full board:

- Base salaries for executive officers should be competitive.
- A sufficient portion of annual compensation should be at risk in order to align the interests of executive officers with those of our shareholders.
- The variable part of annual compensation should reflect both individual and corporate performance.
- As a person's level of responsibility increases, a greater portion of total compensation should be at risk and include more stock-based compensation to provide executive officers long-term incentives and help to align further the interests of such executives and shareholders in the enhancement of shareholder value.

Our executive compensation program currently has three primary components: base salary, annual cash bonuses and stock-based awards pursuant to our 2001 Plan. In addition, an executive officer may receive certain benefits that are specifically provided for in his employment agreement or are generally available to all salaried employees. We do not have any defined benefit pension plans, nonqualified deferred compensation arrangements or supplemental retirement plans for our executive officers.

The committee has not engaged an outside compensation consultant, but the company has utilized reported compensation data provided by Equilar, Inc. Although the committee does not formally benchmark any component of our executive officer compensation to a particular target percentile of any other company's compensation, this data allows a general comparison of the overall compensation for our executive officers with that of other comparable size non-durable manufacturing companies.

For each executive officer, the committee determines the appropriate level for each compensation component based in part, but not exclusively, on its view of competitive market factors, internal equity and consistency, and other considerations deemed relevant, such as rewarding extraordinary performance. The committee has not adopted any formal or informal policies or guidelines for allocating compensation among different forms of cash compensation, between cash and non-cash compensation or between currently paid and long-term compensation. The committee also considers the potential risk incentive each compensation component may have on an executive officer and believes that the compensation packages for our executive officers achieve the appropriate balance of cash and non-cash, discretionary and performance-based and short-term and long-term incentives and do not encourage undue or inappropriate risk-taking. Our president and chief executive officer provides the committee

with recommendations for executive officers other than himself, which the committee reviews and approves as submitted or with revisions, if any.

*Base Salaries.* The committee determines levels of our executive officers' base salaries so as to be competitive with amounts paid to executives performing similar functions in comparable size non-durable manufacturing companies. The amount of each executive officer's annual increase in base salary, if any, is based on a number of largely subjective factors, including changes in the individual's duties and responsibilities, the personal performance of such executive officer, the performance of the company, cost-of-living increases, and such other factors as the committee deems appropriate, including the individual's overall mix between fixed and variable compensation and between cash and stock-based compensation. In the case of Mr. Byrne, his employment agreement provides for an initial base salary of at least \$350,000.

Mr. Byrne's base salary is reviewed annually for adjustment effective January 1. The base salaries of Messrs. Leymeister, Owens and Riggs are reviewed annually for adjustment effective April 1. Salary increases for Messrs. Byrne, Leymeister, Owens and Riggs in 2010 were 2.86%, 2.41%, 2.76% and 3.13%, respectively. The 2011 salary increase for Mr. Byrne was 2.78% effective January 1, 2011. Salary increases for the remaining executive officers in 2011 have not yet been determined. In determining salary increases, the primary factors considered were the executive officers' individual performances, the growth of the company, changes in their duties and responsibilities and the cost-of-living.

*Annual Cash Bonuses.* Each of our executive officers is eligible to receive annual cash bonuses based on discretionary determinations made by the committee. Except in the case of Mr. Byrne, we have not adopted a formal or informal annual bonus arrangement with pre-set performance goals. Rather, the committee's determination to pay a cash bonus, if any, is made after the year end based on the committee's subjective judgment with respect to the past performance of the individual and the company or on the attainment of non-quantified performance goals during the year. In either such case, the bonus may be based on the specific accomplishments of the individual or on the overall success of the company. Discretionary bonuses are paid after our earnings for the applicable year are released. The discretionary bonuses for 2010 paid in 2011 were awarded based on each executive officer's individual performance and accomplishments and the continued success of the company during 2010 and are reflected in the Summary Compensation Table. In the case of Mr. Byrne, in addition to the possibility of a discretionary cash bonus in the subjective judgment of the committee, Mr. Byrne's employment agreement had provided for an objective annual cash bonus opportunity based on our EBITDA (earnings before interest, taxes, depreciation, and amortization) compared to certain EBITDA levels set forth in Mr. Byrne's agreement for 2008, beginning at a bonus of \$100,000 if EBITDA was \$17,000,000 and increasing \$50,000 for each \$500,000 increase in EBITDA up to a maximum of the greater of \$250,000 or his base salary at December 31 of the year in respect of which the EBITDA bonus was being paid if EBITDA exceeded \$18,500,000.

Effective January 1, 2009, the company and Mr. Byrne entered into an amended and restated employment agreement, which included a cash performance bonus award agreement (the "2009 Agreement"). Pursuant to the 2009 Agreement, and the amendment and restatement of our 2001 Plan which was approved by shareholders at the 2009 annual meeting, Mr. Byrne is entitled to an objective annual cash bonus opportunity based on our EBITDA (computed without regard to the effects of any awards granted under the 2001 Plan) of \$100,000 if EBITDA is \$22,000,000; \$175,000 if EBITDA is \$25,000,000; \$250,000 if EBITDA is \$27,000,000; \$300,000 if EBITDA is \$29,000,000; and the greater of \$350,000 or his base salary at the start of the performance year if EBITDA is equal to or greater than \$31,000,000, for each year while he is employed under his new employment agreement. Any such bonuses are prorated between breakpoints. In 2010, our EBITDA as calculated under the 2009 Agreement exceeded \$31,000,000. As a result, we paid Mr. Byrne in 2011 a cash bonus for 2010 of \$360,000, equal to the amount of his 2010 base salary, under the 2009 Agreement. For 2011, Mr. Byrne's maximum cash bonus under the 2009 Agreement is \$370,000, equal to the amount of his base salary for 2011.

*Stock-Based Awards.* The committee also administers our 2001 Plan to provide stock-based incentives to our key employees, including executive officers. As noted above, our shareholders approved an amendment and restatement of the 2001 Plan at our 2009 annual meeting.

Grants of stock options, shares of restricted stock, and other possible stock-based compensation are based on each individual's position within the company, level of responsibility, past performance, and expectation of future

performance. In determining the number of stock-based awards to be granted to each executive officer, the committee also considers the number of stock-based awards made in prior years to the executive officer.

Grants of stock-based awards to Mr. Byrne are made on the last business day of the calendar year as set forth in his new employment agreement. Grants to other executive officers are made on or soon after the date that our earnings for the preceding calendar year are released. The committee also may make grants to executive officers at other times during the year in connection with new hires or promotions. The exercise price for stock options is set at the closing per share market price of our common stock on the date of grant.

The stock-based component of our executive compensation program is weighted more heavily toward the granting of shares of restricted stock than stock options. This is because the committee believes that the amount required to be expensed for stock options by accounting standards is significantly greater than the amount of benefit optionees perceive they receive, as well as the fact that restricted stock is comparatively less dilutive to earnings than stock options.

Prior to his new employment agreement, Mr. Byrne’s employment agreement provided for the grant to him of 7,500 options and 7,500 shares of restricted stock on the last business day of each calendar year. During the term of his new employment agreement, on the last business day of each fiscal year Mr. Byrne is entitled to at least (1) 7,500 stock options and (2) 8,000 shares of restricted stock in 2009, 8,500 in 2010, 9,000 in 2011, 9,500 in 2012 and 10,000 in 2013 and thereafter. Mr. Byrne’s options vest immediately. His shares of restricted stock vest in two semi-annual installments.

In February 2010 and 2011, the compensation committee granted shares of restricted stock that vest in three annual installments, and no options, to the other executive officers as follows:

<u>Name</u>	<u>Shares of Restricted Stock</u>	
	<u>2010</u>	<u>2011</u>
David P. Leymeister . . . . .	900	750
M. Michael Owens . . . . .	750	750
Russell W. Riggs . . . . .	1,000	1,000

*Tax Implications.* Section 162(m) of the Internal Revenue Code (the “Code”) generally limits the corporate income tax deduction for compensation paid to certain named executive officers to \$1 million per year, except for certain qualified performance-based compensation. Options granted under our 2001 Plan are intended to constitute performance-based compensation not subject to the Section 162(m) limitation. Prior to 2009, the committee and our board had not adopted a policy with regard to qualifying cash bonus awards that we paid to our executive officers, including the EBITDA cash bonuses paid to Mr. Byrne under his prior employment agreement, as performance-based compensation for purposes of Section 162(m) since that section had no impact on the company’s ability to deduct those bonuses in prior years and only minimal impact in 2008. With the increased reliance upon grants of shares of restricted stock (which are not performance-based compensation for purposes of Section 162(m)) in our stock-based compensation component of our executive compensation program, the committee and our board determined in 2009 to include in the 2001 Plan a provision for dollar-denominated cash bonuses, including Mr. Byrnes’s EBITDA bonus opportunities, that are intended to qualify as performance-based compensation under Section 162(m). At our 2009 annual meeting, the shareholders approved the amended and restated 2001 Plan which, among other revisions, included this provision.

### Employment Agreement

Mr. Byrne's January 1, 2009 employment agreement provides for a base salary of at least \$350,000, which is to be reviewed annually. It also provides for a discretionary bonus to be determined by the compensation committee. In addition to the possibility of a discretionary cash bonus, Mr. Byrne is eligible to receive an annual objective cash bonus based on our EBITDA compared to certain levels set forth in the 2009 Agreement as discussed above. The new employment agreement also provides for grants of 7,500 options and 8,000 shares of restricted stock on the last business day of each year (increasing 500 shares of restricted stock per year during the initial five-year term of the agreement), an annual \$50,000 contribution to fund a life insurance, retirement or savings arrangement, a country club membership, the use of a company car, reimbursement of business expenses and participation in our 401(k) plan and other benefit programs on the same basis as our other salaried employees.

As set forth in the table below, in the event of a change in control of the company (as defined), Mr. Byrne is entitled to severance payments equal to three times his then-current annual base salary, benefits and bonuses (subject to the limits of Section 280G of the Code) if he voluntarily terminates his employment within nine months following the change in control or we terminate his employment without cause within two years following the change of control. Mr. Byrne is entitled to severance payments equal to two times his then-current annual base salary, benefits and bonuses if he is terminated without cause prior to or after two years following a change in control. Unless he provides us with three months' notice, Mr. Byrne is not entitled to any severance payments upon his voluntary termination (other than within nine months following a change in control); if he does provide us with such notice, he is entitled to severance equal to two months' base salary. Mr. Byrne's employment agreement contains certain post-termination covenants not to compete, confidentiality agreements and prohibitions against soliciting our customers and raiding our employees.

Mr. Byrne's employment agreement expires on December 31, 2013, and is thereafter renewable for successive one-year periods, unless the agreement is terminated earlier by him or us. Pursuant to Mr. Byrne's agreement, we have agreed to use our best efforts to cause Mr. Byrne to remain on the board and to be appointed a member of the executive committee of the board.

### Potential Payments Upon Termination or Change of Control

Regardless of the manner in which an executive officer's employment terminates, including upon death, disability or termination for cause, he is entitled to receive amounts earned during his term of employment. Such amounts include:

- salary through the date of termination;
- stock-based compensation in which he has vested; and
- unused vacation pay.

In addition, Mr. Byrne may be entitled to a proportional EBITDA cash bonus for the year of termination if termination occurs in the second half of the year.

The following table summarizes the estimated severance payments to be made under each employment agreement, plan or arrangement which provides for payments to an executive officer at, following or in connection with a termination of employment due to voluntary resignation, involuntary termination without cause, death or disability or change in control:

<u>Employee</u>	<u>Voluntary Termination Without Change in Control (\$)</u>	<u>Involuntary Termination Without Change in Control (\$)</u>	<u>Death or Disability (\$)</u>	<u>Termination with Change in Control (\$)</u>

- (1) The estimated severance payments are based on Mr. Byrne's base salary at December 31, 2010 and his total benefits and bonuses received for 2010. Does not include any proportional EBITDA cash bonus to which he may be entitled for the year of termination if termination occurs in the second half of the year.
- (2) Does not include severance payment of two months' base salary to which Mr. Byrne would be entitled if he gave us three months' notice.
- (3) This severance payment is payable upon involuntary termination without cause prior to or after two years following a change in control.
- (4) This severance payment is payable upon voluntary termination within nine months following a change in control or involuntary termination without cause within two years following a change in control.
- (5) This payment is subject to being reduced to stay within the limits of Section 280G of the Code.
- (6) The estimated value of accelerated vesting of stock-based awards is based on the unvested shares of restricted stock held by each executive officer as of December 31, 2010 and the closing per share market price of our common stock on December 31, 2010.

## REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis included in this proxy statement. Based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the proxy statement.

### Compensation Committee

Edward A. Odishaw, Chairman  
Richard W. Cardin  
Antoine M. Doumet  
Wallace G. Irmscher

### COMPENSATION OF DIRECTORS

We use a combination of cash and stock-based awards to attract and retain qualified directors to serve on our board. In setting director compensation, we consider the significant amount of time that our directors expend in fulfilling their duties, as well as the skill-level required by us for members of our board.

The following table sets forth the current compensation schedule for our directors who are not also employees:

Annual Retainer . . . . .	\$15,000
Daily Meeting Fee . . . . .	\$ 1,000
Telephonic Meeting Fee . . . . .	\$ 500
Additional Annual Retainers:	
Audit Committee Chairman . . . . .	\$12,000
Compensation Committee Chairman . . . . .	\$ 5,000

Our non-employee directors are also granted annually, at their option, either 2,000 stock options or 700 shares of restricted stock under our 2001 Plan on the date of our annual meeting of shareholders. The options are granted at the closing per share market price of our common stock on the date of grant and vest immediately. The shares of restricted stock vest six months following the date of grant.

The following table summarizes the compensation paid to our non-employee directors during 2010:

Name	Fees Earned or Paid in Cash (\$)	Stock Awards(1) (\$)	Option Awards(1) (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
Richard W. Cardin . . . . .	41,500	28,350	—	—	—	—	69,850
Antoine M. Doumet . . . . .	29,000	—	24,720	—	—	—	53,720
Billy R. Hughes(2) . . . . .	20,250	28,350	—	—	—	—	48,600
Wallace G. Irmscher . . . . .	29,500	28,350	—	—	—	—	57,850
Edward A. Odishaw . . . . .	34,500	28,350	—	—	—	—	62,850

(1) Reflects the full grant date fair value with respect to restricted stock and stock options determined in accordance with US GAAP. The method and assumptions used to determine the amount of expense recognized for restricted stock and stock options are set forth in Note 7 to our consolidated financial statements. As of December 31, 2010, each non-employee director had the following number of stock options outstanding: Mr. Cardin, 2,000; Mr. Doumet, 16,000; Mr. Irmscher, 2,000.

(2) Mr. Hughes was elected a director in February 2010.

## **PROPOSAL 2: NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION**

The Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted in July 2010, requires that we provide our shareholders with the opportunity to vote to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the compensation disclosure rules of the SEC. The non-binding advisory vote is not intended to address any specific element of compensation; rather, the vote relates to the overall compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the SEC.

The shareholder vote to approve our executive compensation is advisory, which means that the vote is not binding on the company, our board of directors or the compensation committee. However, the compensation committee will take into account the results of the vote in considering future executive compensation decisions.

As described in detail under the heading “Compensation Discussion and Analysis,” our executive compensation program is designed to attract, motivate and retain highly qualified executive officers who are able to achieve our corporate objectives and create shareholder value. We seek to closely align the interests of our executive officers with the interests of our shareholders. Our executive compensation program is designed to reward our named executive officers for the achievement of short-term and long-term operational and strategic goals and the achievement of increased total shareholder return, while at the same time avoiding the encouragement of undue or inappropriate risk-taking.

Our compensation committee and board believe that the company’s executive compensation program reflects a strong pay-for-performance philosophy and is well aligned with our shareholders’ long-term interests. For example, 43% of the compensation paid to Mr. Byrne for 2010 was based on performance, as measured using both subjective and objective factors. In addition, for the other three named executive officers, between 24% and 34% of their compensation was based on performance.

Moreover, our compensation committee and board believe that the company’s executive compensation program has been effective at incentivizing our executive officers in helping us to achieve outstanding financial performance. Our net income increased by 32.0% in 2010 compared to 2009. We were also able to increase our cash position from \$16.4 million to \$36.2 million.

Accordingly, we ask our shareholders to vote on the following resolution at the annual meeting:

“RESOLVED, that the compensation paid to the company’s named executive officers, as disclosed pursuant to SEC rules, including in our Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.”

Our board and the compensation committee unanimously recommend that all shareholders vote FOR approval of this proposal. All duly submitted and unrevoked proxies will be voted FOR the proposal, except where the proxy card indicates an abstention from the vote.

The affirmative vote of a majority of the shares entitled to vote, and present, either in person or represented by proxy, is required to approve this proposal. Abstentions have the effect of a vote against the proposal, but broker non-votes are not counted.

## **PROPOSAL 3: NON-BINDING ADVISORY VOTE ON THE FREQUENCY OF HOLDING THE NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION**

The Dodd-Frank Wall Street Reform and Consumer Protection Act also provides that shareholders must be given the opportunity to vote, on a non-binding advisory basis, for their preference as to how frequently we should hold future non-binding advisory votes on the compensation of our named executive officers as disclosed in our proxy statements. Under this proposal, shareholders may indicate whether they would prefer that we hold our future non-binding advisory votes on executive compensation once every one, two, or three years. Shareholders also may, if they wish, abstain from voting on this proposal.

Our board of directors and compensation committee believe that an annual vote — i.e., the 1 Year frequency option — is consistent with the company’s efforts to engage in an ongoing dialogue with our shareholders,

including Inberdon, on executive compensation and corporate governance matters. The board and committee have determined that an annual vote will best provide for a meaningful understanding of our shareholders' view on whether they perceive our approach to executive compensation as creating an effective pay-for-performance culture. Further, an annual vote will allow our shareholders to provide timely, direct input on our executive compensation as disclosed in the proxy statement each year. However, shareholders should note that, because the vote on executive compensation occurs well after the beginning of the compensation year, and because the different components of our executive compensation program are designed to operate in an integrated manner and to complement one another, in many cases it may not be appropriate or feasible to change our executive compensation program in consideration of any one year's vote on executive compensation by the time of the following year's annual meeting of shareholders.

This frequency vote is advisory and not binding on the company or our board of directors or compensation committee. The board and committee will take into account the results of the vote, however, in considering the frequency of holding future non-binding advisory votes on executive compensation.

Shareholders may cast a vote on their preferred frequency for our holding a non-binding advisory vote on executive compensation by selecting the option of one year, two years, or three years, or by abstaining from the vote. Our board and the compensation committee unanimously recommend that all shareholders vote for holding an annual non-binding advisory vote on our executive compensation — i.e., the 1 Year frequency option. All duly submitted and unrevoked proxies will be voted for the 1 YEAR option except where the proxy card indicates an abstention from the vote.

The affirmative vote of a majority of the shares entitled to vote, and present, either in person or represented by proxy, is required to approve this proposal. Abstentions have the effect of a vote against all three frequency options, but broker non-votes are not counted.
