PROPOSAL 1: ELECTION OF DIRECTORS

Six directors, constituting our entire board of directors, are to be elected at the 2018 annual meeting to serve until the next annual meeting of shareholders and until their respective successors have been duly elected and qualified. All of the nominees are currently directors and have been recommended for re-election by the nominating and corporate governance committee of the board and nominated by the board. If any nominee should become unavailable for election for any presently unforeseen reason, the persons designated to serve as proxies will have full discretion to vote for another person nominated by the board.

Directors are elected by a plurality of the votes cast by the holders of shares entitled to vote in the election of directors at the annual meeting. Our Restated Articles of Incorporation prohibit cumulative voting for the election of directors.

Our board of directors and nominating and corporate governance committee unanimously recommend that all shareholders vote FOR the election of all our director nominees. All duly submitted and unrevoked proxies will be voted FOR all our nominees, except where authorization to so vote is withheld. Votes withheld and broker non-votes are not counted in the election of directors.

NOMINEES FOR DIRECTOR

The six nominees for director are named below. Each has consented to serve as a director if elected. Set forth below is pertinent information with respect to each nominee:

Timothy W. Byrne

Prior to rejoining us in 2000, Mr. Byrne was president of an Internet services and communications company focused on strategy, marketing and technology. The board selected Mr. Byrne to serve as a director because he is our Chief Executive Officer and has been with the company for more than 25 years in various operational and financial positions. Mr. Byrne is also a past president of the National Lime Association. He has extensive knowledge of the lime industry and our operations, markets and finances and is the only officer of the company to sit on the board.

CORPORATE GOVERNANCE

We have adopted corporate governance practices in accordance with the listing standards of the Nasdaq Global Market and commensurate with our size.

Upon the recommendation of the nominating and corporate governance committee, the board has determined that Messrs. Cardin, Doumet, Harlin, Hughes and Odishaw are independent within the meaning of Nasdaq rules. In making the determination that Mr. Doumet is independent, the committee and the board considered the fact that Mr. Doumet is the brother of Mr. George M. Doumet, who indirectly owns all of the outstanding shares of Inberdon. Mr. Byrne, our president and chief executive officer, is not independent within the meaning of the Nasdaq rules.

Our board of directors meets at least four times each year, and more frequently as required, and is responsible for overseeing the management of the business and affairs of the company, including the development of our major policy and strategy. The board has a standing nominating and corporate governance committee, audit committee, compensation committee and executive committee.

Our practice is to separate the roles of chairman of our board and our president and chief executive officer. We believe that this leadership structure has served us well and may be expected to continue.

Our board of directors as a whole has overall responsibility for risk oversight. The board is involved in major operational and financial decisions, looking to the appropriate board committees for decisions and recommendations in their areas of specific responsibilities. As discussed below, our audit committee oversees our financial reporting, internal control, accounting, disclosure, related-party transaction and “whistleblower” processes and procedures, while our compensation committee considers the impact of our executive compensation policies and practices on the risk profile of our company in making its compensation decisions. Our executive committee is chaired by our independent chairman, and three-fourths of the committee consists of independent directors.

During the year ended December 31, 2017, our board of directors held six meetings, the nominating and corporate governance committee held two meetings, the audit committee held six meetings and the compensation committee held one meeting. The executive committee did not meet during 2017. During 2017, each director then in office attended at least 75% of the aggregate of (a) the total number of meetings held by the board and (b) the total number of meetings held by all committees on which he served. The board has a policy encouraging each director to attend our annual meeting of shareholders, and all of our directors then in office attended the 2017 annual meeting. The board also has a policy that, in conjunction with each regularly scheduled meeting of the board, the independent directors will meet in executive session.

Governance responsibilities are undertaken by our board of directors as a whole, with certain specific responsibilities delegated to the four committees as described below:

- Our nominating and corporate governance committee (the “nominating committee”) is currently composed of Messrs. Doumet (chairman), Cardin, Hughes and Odishaw, each of whom is an independent director. The primary purposes of the nominating committee are to identify and recommend individuals to serve as members of our board, to recommend to the board the duties, responsibilities and members of each committee, and to assist the board with other matters to ensure effective corporate governance, including making independence and other determinations related to director qualifications. The nominating

committee is responsible for administering the board's procedures for consideration of director nominees recommended by shareholders and the board's process for shareholder communications with directors. The nominating committee will consider qualified candidates for nomination for election to the board recommended by our directors, officers and shareholders. In considering all such candidates, the nominating committee will take into account the candidate's experience, qualifications, attributes and skills, in light of the size, structure, composition, diversity and needs of the board, in the following areas: our industries; accounting and finance; business judgment; management; leadership; business strategy; risk management; and corporate governance. All candidates should have a reputation for integrity, have experience in positions with a high degree of responsibility, be leaders in the companies, institutions or professions with which they have been affiliated, and be capable of making a sound contribution to the company. Shareholders wishing to recommend a director candidate for consideration by the nominating committee should send all relevant information with respect to the individual to the chairman of the committee in care of our secretary. Shareholders and other interested persons who wish to contact our directors on other matters should contact our secretary. Our secretary, who may be contacted by mail at our corporate address or by e-mail at uslime@uslm.com, forwards communications to the director(s) as addressed in such communication. The nominating committee has adopted a written charter, which is available on our website located at http://uslm.com/corporate_governance.html. The nominating committee reviews and assesses the adequacy of its charter on an annual basis.

- Our audit committee is currently composed of Messrs. Cardin (chairman), Hughes and Odishaw. Upon recommendation of the nominating committee, our board has determined that each member of the audit committee is independent and meets the other qualification standards set by law, regulation and applicable Nasdaq listing standards. Based on his past education, employment experience and professional certification in public accounting, the board has determined that Mr. Cardin qualifies as an audit committee financial expert as defined by the Securities and Exchange Commission (the "SEC"). The audit committee oversees the company's financial reporting, internal control, accounting and disclosure processes on behalf of our board, is directly responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm ("independent auditors") and may, in its discretion, engage independent counsel or other advisers as the committee may determine to assist it in the performance of its duties and responsibilities. The audit committee is also responsible for overseeing the administration of our Code of Business Conduct and Ethics, which is available on our website located at http://uslm.com/corporate_governance.html; reviewing and approving all related-party transactions; and administering our procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting control and auditing matters and for the confidential anonymous submission by our employees of concerns regarding questionable accounting or auditing matters, including our "whistleblower" procedures. Under our Code of Business Conduct and Ethics and our audit committee charter, we have written policies and procedures for the review and approval of related-party transactions. Proposed transactions with related persons and other transactions, arrangements or relationships involving a director or executive officer that may involve potential conflicts of interest are to be submitted in advance to the audit committee for its review and approval, with any involved director or executive officer playing no role in the investigation and consideration of the matter. In considering whether to approve any such related-party transactions, including with Inberdon, the audit committee would consider whether the transaction was in the best interests of the company and all of its shareholders; whether the same or a similar transaction were available to the company from unrelated third parties on equal or better terms; and whether the terms of the related-party transaction were negotiated at arms'-length and were at least as favorable to the company as any other reasonably available transaction with another party. Advice from independent advisers, including formal fairness opinions, would be sought where appropriate. The audit committee has adopted a written charter, which is available on our website located at http://uslm.com/corporate_governance.html. The audit committee reviews and assesses the adequacy of the charter on an annual basis. The Report of the Audit Committee is set forth below.
- Our compensation committee is currently composed of three independent directors, Messrs. Odishaw (chairman), Cardin and Doumet. The compensation committee is responsible for the evaluation, approval and administration of salary, incentive compensation, bonuses, benefit plans and other forms of

compensation for our officers and certain other management employees, including how our compensation policies and practices relate to our risk management processes and procedures and risk-taking incentives consistent with our overall risk profile. The compensation committee is responsible for administering our 2001 Plan. The compensation committee may, in its discretion, engage any compensation consultants, legal counsel or other advisers as the committee may determine to assist it in the performance of its duties and responsibilities. The compensation committee has adopted a written charter, which is available on our website located at http://uslm.com/corporate_governance.html. The compensation committee reviews and assesses the adequacy of the charter on an annual basis. The Report of the Compensation Committee is set forth below.

- Our executive committee is currently composed of Messrs. Doumet (chairman), Byrne, Hughes and Odishaw. Within the policy and strategic direction provided by our board, the executive committee may exercise all of the powers of the board, except those required by law, regulation or Nasdaq listing standards to be exercised by the full board or another committee of the board, and is required to report to the board on all matters considered and actions taken since the last meeting of the full board.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee is composed of three independent directors as defined under the applicable rules of the Nasdaq Global Market, Section 10A(m)(3) of the Securities Exchange Act of 1934, and the rules and regulations of the Securities and Exchange Commission (the “SEC”). The Committee oversees the company’s financial reporting, internal control, accounting and disclosure processes on behalf of the board of directors. The Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the company’s independent registered public accounting firm (“independent auditors”). Management has primary responsibility for the company’s financial statements and reporting processes, including the company’s systems of internal control. Grant Thornton LLP, the company’s independent auditors, is responsible for performing independent audits of the company’s financial statements and its internal control over financial reporting, in accordance with standards established by the Public Company Accounting Oversight Board (United States) (the “PCAOB”), and expressing opinions, based on its audits, as to the conformity of such financial statements with accounting principles generally accepted in the United States of America and as to the effectiveness of such internal control over financial reporting.

In the performance of its oversight function, the Audit Committee has reviewed and discussed the company’s audited financial statements and internal control over financial reporting with management and the independent auditors. The Committee has also discussed with the independent auditors the other matters required to be discussed under PCAOB standards. In addition, the Committee has received from the independent auditors the written disclosures and the letter concerning independence required by the PCAOB and discussed with them their independence from the company and its management. The Committee has considered whether the independent auditors’ provision of non-audit services to the company is compatible with the auditors’ independence.

The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluation of the company’s internal control over financial reporting and the overall quality of the company’s financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended, and the board of directors approved, the inclusion of the company’s audited financial statements in the company’s Annual Report on Form 10-K for the year ended December 31, 2017 for filing with the SEC.

Respectfully submitted by the members of the Audit Committee of the Board of Directors,

Richard W. Cardin, Chairman
Billy R. Hughes
Edward A. Odishaw

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The compensation committee of our board has the responsibility for administering our executive compensation program. The committee reviews and, as appropriate, makes recommendations to the full board regarding the base salaries and annual cash bonuses for executive officers, and administers our 2001 Plan, including the grant of stock options and shares of restricted stock and cash awards. Where appropriate, we may enter into employment agreements with certain executive officers.

Compensation Philosophy and Objectives. Our principal executive compensation policy, which is endorsed by the committee, is to provide a compensation program for executive officers that will attract, motivate and retain persons of high quality and will support a long-standing internal culture of loyalty and dedication to the interests of the company and our shareholders in order to assist us in creating long-term shareholder value. In administering the executive compensation program, the committee is mindful of the following principles and guidelines, which are supported by the full board:

- Base salaries for executive officers should be competitive.
- A sufficient portion of annual compensation should be at risk in order to align the interests of executive officers with those of our shareholders.
- The variable part of annual compensation should reflect both individual and corporate performance.
- As a person's level of responsibility increases, a greater portion of total compensation should be at risk and include more stock-based compensation to provide executive officers long-term incentives and help to align further the interests of such executives and shareholders in the enhancement of shareholder value.

Our executive compensation program currently has three primary components: base salary, annual cash bonuses and stock-based awards granted pursuant to our 2001 Plan. In addition, an executive officer may receive certain benefits that are specifically provided for in his employment agreement or are generally available to all salaried employees. We do not have any defined benefit pension plans, non-qualified deferred compensation arrangements or supplemental retirement plans for our executive officers.

For each executive officer, the committee determines the appropriate level for each compensation component based in part on its view of competitive market factors, internal equity and consistency and other considerations deemed relevant, such as rewarding extraordinary performance. The committee has not adopted any formal or informal policies or guidelines for allocating compensation among different forms of cash compensation, between cash and non-cash compensation or between currently paid and long-term compensation. The committee also considers the potential risk incentive each compensation component may have on an executive officer and believes that the compensation packages for our executive officers achieve the appropriate balance of cash and non-cash, discretionary and performance-based and short-term and long-term incentives and do not encourage undue or inappropriate risk-taking. Our president and chief executive officer provides the committee with recommendations for executive officers other than himself, which the committee reviews and approves as submitted or with revisions, if any.

The committee has not engaged an outside compensation consultant. Although the committee does not formally benchmark any component of our executive officer compensation to a particular target percentile of any other company's compensation, the committee does, as it believes appropriate, consider data that allows a general comparison of the overall compensation for our executive officers with that of other comparable size non-durable manufacturing companies. In addition, in considering our executive compensation for 2017, the committee took into account the favorable outcome of the shareholder advisory vote on executive compensation in connection with the company's 2017 annual meeting of shareholders and, therefore, did not feel that any major changes were required to our executive compensation program.

Base Salaries. The committee determines levels of our executive officers' base salaries so as to be competitive with amounts paid to executives performing similar functions in comparable size non-durable manufacturing companies. The amount of each executive officer's annual increase in base salary, if any, is based on a number of largely subjective factors, including changes in the individual's duties and responsibilities, the personal performance of such executive

officer, the performance of the company, cost-of-living increases, and such other factors as the committee deems appropriate, including the individual's overall mix between fixed and variable compensation and between cash and stock-based compensation. In the case of Mr. Byrne, his employment agreement provides for a minimum base salary.

Mr. Byrne's base salary is reviewed annually for adjustment effective January 1. The base salaries of our other executive officers are also reviewed annually for adjustment. In determining salary increases in 2017, the primary factors considered were the executive officers' individual performances, the performance of the company and the cost-of-living. Salary rate increases for Messrs. Byrne, Leymeister, Owens and Riggs in 2017 were 2.4%, 1.0%, 2.0% and 3.0%, respectively. Since his resignation as Vice President and Chief Financial Officer, effective September 18, 2017, Mr. Owens has continued to be employed as the Company's Secretary and Treasurer. Upon his appointment as the Vice President and Chief Financial Officer, effective September 18, 2017, Mr. Wiedemer's base salary was set at \$170,000. The 2018 salary rate increase for Mr. Byrne was 2.3%, effective January 1, 2018. The salary rate increases for the remaining executive officers, other than Mr. Byrne, for 2018 have not yet been determined.

Annual Cash Bonuses. Each of our executive officers is eligible to receive annual cash bonuses based on discretionary determinations made by the committee. Except in the case of Mr. Byrne, we have not adopted a formal or informal annual bonus arrangement with pre-set performance goals. Rather, the committee's determination to pay a cash bonus, if any, is made in December each year based on the committee's subjective judgment with respect to the past performance of the individual and the company or on the attainment of non-quantified performance goals during the year. In either such case, the discretionary bonus may be based on the specific accomplishments of the individual and/or on the overall performance of the company. Discretionary bonuses are normally paid after our earnings for the applicable year are released. The amounts of the discretionary bonuses for 2017 paid in 2018 were based on each executive officer's individual performance and accomplishments and the performance of the company, including the increase in gross profit of our lime and limestone operations, during 2017 and are reflected in the Summary Compensation Table.

In the case of Mr. Byrne, in addition to the possibility of a discretionary cash bonus in the subjective judgment of the committee, Mr. Byrne's employment agreement provides that he was entitled for 2017 to an objective annual cash bonus opportunity under our 2001 Plan based on our 2017 EBITDA (earnings before interest, taxes, depreciation, and amortization, computed without regard to the effects of any awards granted under our 2001 Plan) of \$100,000 if EBITDA was \$30,000,000; \$175,000 if EBITDA was \$32,000,000; \$250,000 if EBITDA was \$34,000,000; \$325,000 if EBITDA was \$36,000,000; and the greater of \$410,000 or his base salary at the start of the performance year if EBITDA was equal to or greater than \$38,000,000. Any such EBITDA cash bonus for 2017 would be prorated between breakpoints, if required. In 2017, our EBITDA as calculated under this agreement exceeded \$38,000,000. As a result, we paid Mr. Byrne in 2018 an EBITDA cash bonus for 2017 of \$430,000. For 2018, Mr. Byrne's maximum EBITDA cash bonus is \$440,000, equal to the amount of his base salary for 2018.

Stock-Based Awards. The committee also administers our 2001 Plan to provide stock-based incentives to our key employees, including our executive officers. Grants of stock options, shares of restricted stock and other possible stock-based awards are based on each individual's position within the company, level of responsibility, past performance and expectation of future performance. In determining the number of stock-based awards to be granted to each executive officer, the committee also considers the number of stock-based awards made in prior years to the executive officer, as well as the company's performance and the market price of our common stock.

Grants of stock-based awards to Mr. Byrne are made on the last business day of the calendar year as set forth in his employment agreement. Grants to other executive officers are made on or soon after the date that our earnings for the preceding calendar year are released. The committee also may make grants to executive officers at other times during the year in connection with new hires or promotions. The exercise price for stock options is set at the closing per share market price of our common stock on the date of grant.

The stock-based component of our executive compensation program is weighted more heavily toward the granting of shares of time-vested restricted stock than stock options. This is because the committee believes that the amount required to be expensed for stock options by accounting standards is significantly greater than the amount of benefit optionees perceive they receive, as well as the fact that restricted stock is comparatively less dilutive to earnings than stock options. In the case of restricted stock to be granted to Mr. Byrne under his employment agreement, the vesting of such

restricted stock will also be subject to the achievement of a performance condition based on the gross profit of our lime and limestone operations, as discussed below.

Under his employment agreement, on the last business day of the fiscal year Mr. Byrne was entitled to be granted at least (1) 7,500 stock options and (2) 11,500 shares of restricted stock in 2017. Mr. Byrne’s options vest immediately. His shares of restricted stock vest in two semi-annual installments, provided that the gross profit of our lime and limestone operations for the rolling four quarters ending with the quarter preceding the given restricted stock vesting date exceeds \$10,000,000.

In February 2018 and 2017, the compensation committee granted shares of restricted stock that vest in three annual installments, and no options, to the other executive officers as follows:

Name	Shares of Restricted Stock	
	2018	2017
David P. Leymeister ⁽¹⁾	—	180
M. Michael Owens ⁽²⁾	—	255
Russell W. Riggs	552	501
Michael L. Wiedemer ⁽³⁾	45	N/A

⁽¹⁾ Mr. Leymeister ceased being Vice President – Sales and Marketing effective March 1, 2018.

⁽²⁾ Mr. Owens resigned as Vice President and Chief Financial Officer effective September 18, 2017.

⁽³⁾ Mr. Wiedemer became Vice President and Chief Financial Officer effective September 18, 2017.

In granting these executive officers shares of restricted stock in February 2018, the committee took into account the executive officers’ past and expected performance, the increase in gross profit of our lime and limestone operations during 2017, the change in roles and responsibilities for Messrs. Leymeister and Owens and the change in the market price of our common stock since February 2017, in deciding on the number of shares of restricted stock to be granted in order to provide the executives with meaningful stock-based compensation and incentive for future performance.

Tax Implications. Section 162(m) of the Internal Revenue Code (the “Code”) generally limits the corporate income tax deduction for compensation paid to certain named executive officers to \$1 million per year, except, to the extent applicable, for certain qualified performance-based compensation. To the extent applicable, options granted under our 2001 Plan are intended to constitute performance-based compensation not subject to the Section 162(m) limitation, and grants of time-vested restricted stock are also considered performance-based for Section 162(m) purposes if, as in the case of the restricted stock granted to Mr. Byrne on December 31, 2017, their vesting is also subject to a performance condition. Our 2001 Plan also provides for dollar-denominated cash bonuses, including Mr. Byrnes’s annual EBITDA cash bonus opportunities, that, to the extent applicable, are intended to qualify as performance-based compensation under Section 162(m), but our discretionary cash bonuses are not intended to be performance-based for Section 162(m) purposes.

Employment Agreement

Mr. Byrne's employment agreement provides for a base salary of at least \$410,000, which is to be reviewed annually. It also provides for a discretionary cash bonus to be determined by the compensation committee. In addition to the possibility of a discretionary cash bonus, Mr. Byrne is eligible to receive an annual objective cash bonus based on our EBITDA compared to certain target levels set forth in his employment agreement as discussed above. The employment agreement also provides for annual grants of options and of shares of restricted stock on the last business day of each year during the term of the employment agreement, as follows: (1) 7,500 options each year; and (2) 12,000 shares of restricted stock in 2018 and 12,500 shares of restricted stock in each year commencing with 2019 through the final year of the employment term. The options will be granted at the closing per share market price of our common stock on the date of grant and will vest on the date of grant; and the shares of restricted stock will vest in two semi-annual installments, provided that the gross profit of our lime and limestone operations for the rolling four quarters ending with the quarter preceding the given restricted stock vesting date exceeds \$10,000,000. Under Mr. Byrne's employment agreement, he is also entitled to an annual \$50,000 payment in lieu of our obligation to fund a life insurance, retirement or savings arrangement, a country club membership, the use of a company-provided automobile, reimbursement of business expenses and participation in our 401(k) plan and other benefit programs on the same basis as our other salaried employees.

As set forth in the table below, in the event of a change in control of the company (as defined), Mr. Byrne is entitled to severance payments equal to three times his reported taxable income for the last full year immediately preceding his termination if he voluntarily terminates his employment within nine months following the change in control or we terminate his employment without cause within two years following the change in control. Mr. Byrne is entitled to severance payments equal to two times such reported taxable income if he is terminated without cause prior to or after two years following a change in control. Unless he provides us with three months' notice, Mr. Byrne is not entitled to any severance payments upon his voluntary termination (other than within nine months following a change in control); if he does provide us with such notice, he is entitled to severance equal to two months' base salary. All post-termination payments to Mr. Byrne are subject to the limitations of Sections 409A and 280G of the Code. Mr. Byrne is entitled to no additional base salary or severance payment if his employment terminates as a result of cause (as defined), or because of his death or disability. Mr. Byrne's employment agreement also contains certain post-termination covenants not to compete, confidentiality agreements and prohibitions against soliciting our customers and raiding our employees.

Potential Payments Upon Termination or Change in Control

Regardless of the manner in which a named executive officer's employment terminates, including upon death, disability or termination for cause, he is entitled to receive amounts earned during his term of employment. Such amounts include:

- salary through the date of termination;
- stock-based compensation in which he has vested; and
- unused vacation pay.

In addition, Mr. Byrne may be entitled to a proportional EBITDA cash bonus for the year of termination if termination occurs in the second half of the year.

The following table summarizes the estimated severance payments to be made under each employment agreement, plan or arrangement which provides for payments to a named executive officer at, following or in connection with a termination of employment due to voluntary resignation, involuntary termination without cause, death or disability or change in control as of December 31, 2017:

⁽¹⁾ The estimated severance payments are based on Mr. Byrne's reportable taxable income for 2017. Does not include any proportional EBITDA cash bonus to which he may be entitled for the year of termination if termination occurs in the second half of the year.

⁽²⁾ Does not include severance payment of two months' base salary to which Mr. Byrne would be entitled if he gave us three months' notice.

⁽³⁾ This severance payment is payable upon involuntary termination without cause prior to or after two years following a change in control.

⁽⁴⁾ This severance payment is payable upon voluntary termination within nine months following a change in control or involuntary termination without cause within two years following a change in control.

⁽⁵⁾ This payment is subject to being reduced to stay within the limits of Section 280G of the Code.

⁽⁶⁾ The estimated value of accelerated vesting of stock-based awards is based on the unvested shares of restricted stock held by each executive officer as of December 31, 2017 and the closing per share market price of our common stock on December 31, 2017.

PAY RATIO

In accordance with Item 402(u) of Regulation S-K, promulgated by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, we determined the ratio of the annual total compensation of Mr. Byrne, our CEO, relative to the annual total compensation of our median employee. For purposes of reporting annual total compensation and the ratio of annual total compensation of the CEO to the median employee, both the CEO's and the median employee's annual total compensation were calculated by taking the sum of annual total compensation according to the SEC's instructions for preparing the Summary Compensation Table and the employer health and life insurance contributions.

In determining the median employee, we collected information regarding annual gross pay for all of our employees, excluding our CEO, who were employed by us as of December 31, 2017. Gross pay generally included an employee's actual income, including wages, overtime, bonuses, equity compensation and employer health and life insurance contributions. We included all of our full-time, part-time, temporary and seasonal employees.

For 2017, the annual total compensation of our CEO was \$2,227,940, and the median employee annual total compensation was \$64,281, resulting in a pay ratio of 35:1.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis included in this proxy statement. Based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the proxy statement.

Compensation Committee

Richard W. Cardin
Antoine M. Doumet

COMPENSATION OF DIRECTORS

We use a combination of cash and stock-based awards to attract and retain qualified directors to serve on our board of directors. In setting director compensation, we consider the significant amount of time that our directors expend in fulfilling their duties, as well as the skill level required by us for members of our board.

The following table sets forth the current compensation schedule for our directors who are not also employees:

Annual Retainer	\$ 15,000
Daily Meeting or Per Diem Fee	\$ 1,500
Telephonic Meeting Fee	\$ 500
Additional Annual Retainers:	
Audit Committee Chairman	\$ 17,000
Compensation Committee Chairman	\$ 5,000

Our non-employee directors are also granted annually, at their option, either 2,400 stock options or 800 shares of restricted stock under our 2001 Plan upon their election or re-election by the shareholders as a director. The options are granted at the closing per share market price of our common stock on the date of grant and vest immediately. The shares of restricted stock vest six months following the date of grant.

The following table summarizes the compensation paid to our non-employee directors during 2017:

Name	Fees Earned or Paid in Cash (\$)	Stock Awards ⁽¹⁾ (\$)	Option Awards ⁽¹⁾ (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Non- qualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
Richard W. Cardin	51,500	64,296	—	—	—	—	115,796
Antoine M. Doumet	34,000	—	35,496	—	—	—	69,496
Billy W. Hughes	34,500	64,296	—	—	—	—	98,796
Edward A. Odishaw	39,500	64,296	—	—	—	—	103,796

⁽¹⁾ Reflects the aggregate grant date fair value with respect to restricted stock and stock options determined in accordance with US GAAP. The method and assumptions used to determine fair value for restricted stock and stock options are set forth in Note 7 to our consolidated financial statements. As of December 31, 2017, non-employee directors had the following number of stock options outstanding: Mr. Doumet, 22,400.

PROPOSAL 2: NON-BINDING ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act requires that we provide our shareholders with the opportunity to vote to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the compensation disclosure rules of the SEC. The non-binding advisory vote is not intended to address any specific element of executive compensation; rather, the vote relates to the overall compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the SEC. At our 2017 annual meeting of shareholders, our shareholders voted, on an advisory basis, to hold the non-binding advisory vote on executive compensation annually. Based on the recommendation of our board of directors and compensation committee to hold annual advisory votes on executive compensation and the advisory vote of the shareholders, the board decided to include a shareholder advisory vote to approve the Company's executive compensation annually.

The shareholder vote to approve our executive compensation is advisory, which means that the vote is not binding on the company, our board of directors or the compensation committee. However, the compensation committee will take into account the results of the vote in considering future executive compensation decisions.

As described in detail under the heading "Compensation Discussion and Analysis," our executive compensation program is designed to attract, motivate and retain highly qualified executive officers who are able to achieve our corporate objectives and create long-term shareholder value. We seek to closely align the interests of our executive officers with the interests of our shareholders. Our executive compensation program is designed to reward our named executive officers for the achievement of short-term and long-term operational and strategic goals and the achievement of increased total shareholder value, while at the same time avoiding the encouragement of undue or inappropriate risk-taking.

Our compensation committee and board of directors believe that the company's executive compensation program reflects a strong pay-for-performance philosophy and is well aligned with our shareholders' long-term interests. For example, 31% of the compensation paid to Mr. Byrne for 2017 was based on performance, as measured using both subjective and objective factors, and 46% was stock-based compensation, with the 2017 and 2016 increases in the fair value of Mr. Byrne's stock-based awards, compared to 2015, primarily resulting from the increase in the market price of our common stock in December 2017 and 2016 compared to December 2015. In addition, for the other four named executive officers, between 8% and 28% of their compensation was based on performance, including 0% to 13% that was stock-based compensation.

Moreover, our compensation committee and board of directors believe that our executive compensation program has been effective at compensating our executive officers and incentivizing them to help us achieve solid financial performance during uncertain economic conditions over the last few years. At the same time, in addition to individual performance, the committee considered the changing roles in the company of Messrs. Leymeister and Owens when awarding our named executive officers discretionary cash bonuses for 2017, and considered both such changes and the change in the market price of our common stock in February 2018 compared to February 2017 in granting our named executive officers, other than Mr. Byrne, the number of shares of restricted stock that were granted to them in February 2018.

Accordingly, we will ask our shareholders to vote on the following resolution at the 2018 annual meeting:

"RESOLVED, that the compensation paid to the company's named executive officers, as disclosed pursuant to SEC rules, including in our Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED."

Our board of directors and compensation committee unanimously recommend that all shareholders vote FOR approval of this proposal. All duly submitted and unrevoked proxies will be voted FOR the proposal, except where the proxy card indicates a vote against or an abstention from the vote.

The affirmative vote of a majority of the shares of our common stock entitled to vote and present, either in person or represented by proxy, is required to approve this proposal. Abstentions have the same effect as a vote against the proposal, but broker non-votes are not counted.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE
